

## PROFESSIONAL EDUCATION

# Endoscopic and Endobronchial Ultrasound (EUS/EBUS) Course

## Course Overview

Endoscopic and Endobronchial Ultrasound (EUS/EBUS) have emerged as important new imaging modalities in gastroenterology and pulmonology. This program is designed to provide nurses with a thorough update of the most recent advances in endosonographic technology and equipment, as well as a step-by-step guide to assisting and preparing for the procedure. Hands-on demonstration will be provided through work stations utilising Olympus ultrasound processors, echoendoscopes, miniprbes, guide sheath kits and needles used in FNA procedures.

## Learning Objectives

- Identify the role of nurses involved with EUS/EBUS procedures
- Review the gastrointestinal and respiratory anatomy and physiology related to EUS/EBUS
- Discuss the physics of ultrasound as it relates to echoendoscopes for GI and bronchoscopy
- Demonstrate proper procedure room and scope set-up for the EUS/EBUS procedures
- Demonstrate proper use of diagnostic and therapeutic accessories
- Demonstrate proper handling and reprocessing procedures

## Certification

Nurses may claim this course as five hours of Continuing Professional Development (CPD) activity.

## Cost

\$95.00

Including morning tea and lunch

## Target Audience

This course is intended for Managers, Nurses, Respiratory Therapists and Educators

## Training Format

Didactic and hands-on demonstration by an Olympus Clinical Educator and Olympus Trainer

## Duration

One day:

8:30am - 9:00am

Registration

9:00am - 3:00pm

Course

## Location

Offered nationally across Australia and New Zealand
